Workshop on Biological Membranes: Modelling, Analysis and Numerics
London, January 7-8, 2016

__Organiser:__ *__Robert Nürnberg__*

This workshop aims to bring together experts from within the different communities (biophysics, numerics, analysis) to better understand the structure and the behaviour of biological membranes.

The main goal of the workshop is to stimulate discussions between these communities, to learn from each other, and to initiate collaborations.

Invited Speakers
Marino Arroyo
Sören Bartels
Klaus Deckelnick
Charles Elliott
Harald Garcke
Mourad Ismail
Timm Krüger
Reinhard Lipowsky
John Lowengrub
Moritz Mercker
Chaouqi Misbah
David Salac
Pierre Saramito
Björn Stinner
